

# One Year of **PETRON** in Malaysia

*It has been a year since Petron broke ground in Malaysia.  
Thank you for having us fuel your journeys and warm your homes.*

*Today, 125 of our 550 service stations all over the country carry  
our distinctive blue and red logo, bringing our premium products  
and innovative services closer to our customers.*

*In the coming months, more stations will carry the  
colours of our company in many parts of the country.*

*We take this opportunity to thank everyone  
who has been part of our journey here in Malaysia,  
especially our customers who have  
supported and allowed us to be part of their lives.*
