FUEL FOR EVERYONE

DRIVE SAFELY

Keep all kitchen windows and doors open for proper ventilation during cooking.

Buka semua tingkap dan pintu ketika memasak.

Light your match before you turn on non-automatic cookers.

Pasangkan mancis sebelum menghidupkan dapur bukan automatik.

Place your cylinders between 1 to 1.5 meters away from your cooker.

Letakkan silinder gas di antara 1 - 1.5 meter dari dapur anda.

Turn off the Gas control knobs on both the cooker and the regulator when the cooker is not in use. Use only SIRIM approved regulators.

Matikan suis dan alat atur apabila dapur tidak digunakan. Guna alat atur yang diluluskan oleh SIRIM sahaja.

Never place the gas cylinder in a horizontal position.

Jangan baringkan silinder gas.

Never use a naked flame to test for leaks. Use soap solution instead.

Jangan guna api untuk mengesan kebocoran gas. Sebaliknya, gunalah larutan sabun.

Do not switch on electrical equipment when you smell a gas leak.

Jangan hidupkan alat elektrik jika terbau kebocoran gas.

Do not place hot objects directly on top of the cylinder.

Jangan letak benda-benda panas di atas silinder gas.
