PETRON EXPANDS ‘GO-TO-SAFETY-POINTS’ PROGRAM WITH MALACCA POLICE

AYER KEROH – Petron Malaysia, in collaboration with the Malacca State Police, has transformed all of its 20 service stations in the state into “safety hubs” for those needing police assistance. This brings to more than 400, the number of Petron stations that are now “Go-To Safety Points” (GTSP).

GTSP is an initiative led by the Royal Malaysia Police (RMP) under the umbrella the United Against Crime Program. Petron Malaysia, the pioneering oil company to join the GTSP, supports this government-led initiative as part of its core advocacy on safety.

“The GTSP program is aligned with our own safety values. Our stations are secured and well-lit, especially at night so motorists feel safe to refuel. We have put in place a nationwide road safety program that educates motorists, even students on responsible road use. Now, we are transforming all of our stations into safe havens for people who need police assistance,” said Petron’s Head of Retail, Pn Faridah Ali.

Through this program, Petron dealers can better serve the community and play an active role towards safer communities. Motorists can enjoy Petron products and services in a safer and more secure environment. GTSP increases safety and security awareness among Petron customers, and encourage togetherness in the community.

“GTSP has enabled us to better serve the public and customers beyond our premium fuels and personalized services. We go the extra mile for our communities and customers,” Pn Faridah Ali added.

Apart from Petron stations in Malacca, the company’s service stations in Klang Valley, Johor, Negeri Sembilan, Perlis, Kedah, Penang, Perak and Sabah are also “Go-To Safety Point” ready. Dealers and personnel of all these stations have been trained by the RMP on

(continued)

how to assist the public and contact the police in case of an emergency. In addition, Petron's "Treats" convenience stores also have a "de-stress corner" for the public to seek comfort and assistance during an emergency.

Petron Malaysia joined the program in September 2013 with 100 of its stations as "Go-To Safety Points". The company said training will continue for its dealers and personnel as 150 more stations are waiting to be transformed. The company has more than 560 stations nationwide.

"We are pleased to partner with Petron in expanding the "Go-to-Safety Points" program in the State of Malacca. With 20 Petron service stations, we hope to promote a safer environment in Malacca and thereby reduce the fear of crime among the community", the Malacca Chief Of Police said.

"Since service stations are part of the local community, the GTSP program allows us to work closely with residents in preventing and solving crime incidents," he added.
