PETRON CONTINUES ROAD SAFETY PROGRAM WITH UNIVERSITY STUDENTS

PENANG – Petron Malaysia wrapped up its Road Safety Program for the year with a Safety Riding Course at the University Sains Malaysia. This is the second time that Petron engaged students at the University and around 100 students participated in the program which promotes safe and responsible road use.

The Safety Riding Course, which is supervised by the Royal Malaysia Police and professional trainers, includes practical lessons on basic driving, bike handling, and driving ethics.

“Road safety is one of our company’s leading and long-running core advocacies. We aim to create awareness among all road users on how they can make their journeys more enjoyable and safer. We firmly believe through continuous education, we can make a difference and save more lives,” En Zaimi Harun, Head of Corporate Affairs said.

Petron also promotes road safety through a nationwide awareness campaign during holidays and festive seasons. The campaign heightens awareness on responsible driving by conducting vehicle safety checks and promoting the use of seatbelts. This year in partnership with Honda, Petron conducted safety checks on 1,500 vehicles during festive seasons.

Petron Road Safety Program is aligned with the objectives of the United Nations Decade of Action for Road Safety 2011-2020, a global advocacy that promotes safe driving through strict observance of traffic laws, use of seatbelts, wearing of proper helmet for motorcyclists, among others.

Petron also promotes safety thru the “Go-To-Safety-Points” in all its service stations. This means customers and the public alike can seek temporary shelter at Petron stations during emergencies. This initiative is jointly organised with the Royal Malaysia Police to ensure safer communities and journeys.
